

**Model #:** CPS1220RM

**UPC:** 649532893522

**MSRP:** \$62.99

CyberPower's Power Distribution Unit (PDU) provides additional outlets for your rackmount power needs. The 1220RM offers 12 (twelve) 20A outlets (6 front, 6 rear-mount) the 19" 1U case. The rugged metal housing can withstand the most demanding environments, and a 15' cord ensures compatibility for most rackmount applications. CyberPower PDU's can also be used for retail, security, POS, telecommunications, networking, audio/video displays, or anywhere dedicated power distribution is needed.

- EMI/RFI Shielding - Provides shielding against electromagnetic interference & radio frequency signals. Most commonly, this is used to prevent line noise or "humming" that occurs over telephone lines or stereo electronics.
- Resettable Circuit Breaker - Convenient unit reset in case of an overload.
- ISO & Safety Certifications - All CyberPower's manufacturing facilities are ISO-9001 Quality Tested. Our products are also UL Recognized.

## Technical Specifications

<b>General</b>	
Model #	CPS1220RM
<b>Input</b>	
Voltage	110/120 Nominal
Frequency	60Hz
Current Draw	20A
Load Capacity	2400 VA
Plug Type	NEMA 5-20P
Cord Length	15'; 12 Gauge
<b>Output</b>	
Outlets - Total	12
Outlets - Front	6 x NEMA 5-20R
Outlets - Rear	6 x NEMA 5-20R
<b>Surge Protection and Filtering</b>	
Surge Suppression	N/A
EMI/RFI Filtration	EMI/RFI
<b>Indicators</b>	
Indicator Lights	Power On (Red)
<b>Physical</b>	
Dimensions (WxHxD)	19" x 1.75" x 4.25"
Weight	5.8 lbs.
Color	Black
<b>Warranty</b>	
Product Warranty	3 Year
